PRO LEARNING OPPORTUNITY

ENGin

WHAT IS IT?

Pro Learning is a completely free opportunity for ENGin students to complete high-quality online Udemy courses on any topic of their choice with ENGin volunteer support.

WHY TO JOIN?

- Learn at your pace, whenever and wherever you can
- Share new information with your ENGin volunteer and learn together
- Reach your professional and academic goals
- Get globally recognized Udemy certification

Any ENGin student whose volunteer agrees to support them may participate. So if you have a dream course to enroll in, apply with your ENGin volunteers' support.

Udemy: Free access until the end of 2024!

HOW TO APPLY?

To get an ENGin subscription to the Udemy platform, your volunteer should agree to support you along the way. Both of you need to fill out separate application forms with your chosen course and a learning plan.

To get the most out of the program and participate confidently, English proficiency at least at the intermediate level is recommended.
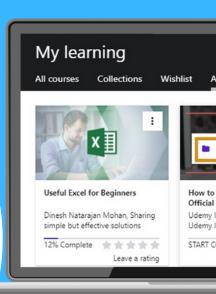

Find out more information (here) and apply! It is never too late to start studying!

ENRICH YOUR ENGIN EXPERIENCE

I managed to finish several courses and I am now working on a new one. I find 'Cybersecurity Habits Masterclass' particularly useful for me. For the last few years I've been working remotely, and it's extremely important to protect the projects I'm working with as well as my internet connection and my data.

My volunteer, Jay Ann Knox, was very supportive of my learning. Having someone to share new knowledge was very encouraging and entertaining. This kind of recap also helped me memorize the most critical things from the course.
